## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group One, claim(s) 1-6, drawn to a compressor motor driving system.

Group Two, claim(s) 7-13, drawn to a controller for detecting the operating mode of an induction motor.

Claims 14-17 are common claims and will be examined with either one of Groups which is elected.

Claims 18-20 are improper claims because these claims are multiple dependent claims depending on other multiple dependent claims which is improper. See MPEP 608.01(n). These claims will not be examined.

2. The inventions listed as Group One and Group Two do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:  
Group One is claiming a hardware layout system as shown in applicant's Fig. 4 whereas

Art Unit: 2837

Group Two is claiming a mode detection system for detecting an acceleration state or a steady state as shown in applicant's Fig. 8, step 82.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
